Chapter 2: Revitalizing the Environment

Share Your Reflections with Laurie

Write a message to Laurie S. Cornelius with your reflections on the process she and her colleagues went through to create a child-centered environment in “Our Dream Became Our Curriculum: A Story of an Outdoor Play Space.”

Consider including your thoughts about the following:

- How do Laurie’s vision, philosophy, and values about children and the environment influence her approach to planning for the environment?
- How did Laurie promote her vision and values with her staff, funders, and others in the community?
- What specific elements of Laurie’s environment reflect children’s lives and interests?
