Each year, the educational professionals at *Learning* Magazine judge new books and products by using them in actual educational settings. The Teacher's Choice Awards picks the best products for engaging and teaching children based on real-world feedback and helps connect parents and educators to them.

About *All the Colors We Are*

Celebrate the essence of one way we are all special and different from one another—our skin color! This book offers children a simple, scientifically accurate explanation about how our skin color is determined by our ancestors, the sun, and melanin. It's also filled with photographs that capture the beautiful variety of skin tones. Reading this book frees children from the myths and stereotypes associated with skin color and helps them build positive identities as they accept, understand, and value our rich and diverse world. Unique activity ideas are included to help parents and educators extend the conversation with children.
